

Shelter: Coventry Class

Communications and Language

At school we will be:

- Working on maintaining attention, concentration and listening to a story.

At home you can help by:

- Discussing your child's favourite story at home.

Physical development

At school we will be:

- Working on the way we move skilfully being able to negotiate spaces successfully.

At home you can help by:

- When at the park practice moving in different ways.

Personal, Social and Emotional Development

At school we will be:

- Working on understanding that own actions affect other people

At home you can help by:

- Taking care of plants at home saying what they need to grow.

Literacy

At school we will be:

- Encouraging the children to enjoy an increasing range of books

At home you can help by:

- Talking about the books the children bring home.

Mathematics

At school we will be:

- Comparing two groups of objects, saying when they have the same number.

At home you can help by:

- Playing games that encourage sharing making sure they have the same number of objects.

Understanding the World

At school we will be :

- Talking about some of the things they have observed such as plants, animals, natural and found objects.

At home you can help by:

- Talking about the different seasons and how things have changed in their environment.

Expressive Arts and Design

At school we will be :

- Beginning to be interested in and describe the texture of things.

At home you can help by:

- To talk about how different things feel.

Showcase

To work with parents and families to:

- Make animal shelters in the outdoor environment,
- To make bird food to encourage a range of birds into our outdoor environment.

Wayfield WOW Moment

To observe chicks from egg to hatching.

To use natural materials to make a nest for a bird.
