

How can you reach the sky?

Literacy & Languages

At school we will :

- Be reading 'The Lion inside' and creating our own book trailers
- Using 'The Building Boy' to inspire our own stories
- In topic, we will be writing diary entries and newspaper reports.

At home you can help by:

- Looking at examples of newspaper stories
- Making predictions based on what you have read
- Making links between the books we are reading and other books you have read

Maths

At school we will :

- Measuring and reading temperature scales
- Interpreting and creating Pictographs
- Money- counting, calculating and exchanging
- Learn about fractions

At home you can help by:

- Discussing changes in temperature e.g. during seasons, heating and cooling
- Practise using money in real life contexts
- Find fractions in everyday contexts eg. Portions at dinnertime

Science & Technology

At school we will :

- Identifying and comparing the suitability of different materials
- Finding out how we can change the shape of some materials
- Becoming scientists and testing different materials

At home you can help by:

- Discussing how different materials are used in different ways
- Gather different materials and test how they are different

Humanities

At school we will :

- Learning about the different ways that humans have tried to fly throughout history
- Learning key facts about Amelia Earhart and the Wright Brothers and making comparisons between their aircrafts and modern day planes.

At home you can help by:

- Creating your own flying machine
- Research another mode of transport and how. It began.

Healthy Living

At school we will :

- Improving our ball skills
- Learning about and playing invasion games
- Learning about fitness and health

At home you can help by:

- Discussing rules for games and practising skills acquired

The Arts

At school we will :

- Creating our own model aircraft based on the Montgolfier brothers air balloons and the Wright brothers planes
- Be learning about different religions through Art

At home you can help by:

- Gathering materials that could be used to create your model
- Design and make your own hot air balloon
